

# CONCEPT

## STEP UP TO CONCEPT SERIES™ EXOTICS

Drum Workshop has become synonymous with custom exotic finishes, while at the same time, PDP Concept Series™ drums have provided drummers with the user-friendly features and build-quality that had previously been reserved for much more expensive boutique sets. New Concept Maple Exotics deliver on both of these promises in a big way. Offered in a 5-piece F.A.S.T. configuration with available 8" and 14" add-ons, the all-maple shells are finished in a rich Walnut veneer with glossy Candy Black Burst lacquer. Sizes include an 18x22" virgin bass drum, 8x10" and 9x12" rack toms, a 14x16" floor tom, and a matching 5.5x14" snare drum. Mounting hardware for the rack toms is also included in the shell pack.

# SNARE

## THE FATTEST MAPLE WOOD HOOP SNARE AROUND

This new addition to the Concept line has a fat-sounding backbeat courtesy of an uber-thick 20-ply, all-maple shell. Matching maple-plyed wood counter hoops complete the drum. The Concept Wood Hoop snare is fitted with dual-turret lugs, MAG throw-off, and Remo heads.

See the full line of PDP snares at: [www.pacificdrums.com](http://www.pacificdrums.com).

# PRODUCT GUIDE

# COLLECTOR'S SNARES

## FEATURED ON COVER

### INTRODUCING COLLECTOR'S SERIES® PURE OAK

In addition to popular Collector's Series® woods such as Pure Maple, Pure Birch, and Pure Cherry, drummers can now custom order the punchy, focused tonality of Pure Oak shells. Preconfigured in the HVL (Horizontal/Vertical Low Timbre) grain orientation and utilizing thicker 1/32" plies, Pure Oak Drums can be ordered in most California Custom Shop finish options.

Pure Oak drums come standard with new AA 2-ply DW Heads from Remo USA and are outfitted with standard appointments such as STM (Suspension Tom Mounts), True-Hoops™, True-Pitch 50™ Tuning, MAG Throw-Off with 3P (3 position butt-plate), and more.

Versatile enough for almost any playing situation, Pure Oak drums offer drummers yet another sonic option to choose from.

IN AN EFFORT TO FURTHER EXPAND THE EVER-GROWING SELECTION OF COLLECTOR'S SERIES® SNARES, DW HAS PRODUCED A WIDE VARIETY OF NEW SELECTIONS FOR 2016. TO SEE THE FULL LINE-UP OF DW SNARE DRUMS, LOG ON TO: [WWW.DWDRUMS.COM](http://WWW.DWDRUMS.COM).

6.5 x 14" Mick Fleetwood "Rumours" Icon Snare

### NO SIGNATURE REQUIRED: THE MICK FLEETWOOD "RUMOURS" ICON

The latest Collector's Series® Icon snare pays homage to a legendary drummer that has earned a coveted seat in the Rock and Roll Hall of Fame with his namesake band, Fleetwood Mac. The limited edition 6.5x14" snare drum features a background of highly-figured Curley Maple and is meticulously hand-inlaid with multiple John Good-selected exotic woods. Complemented with gold hardware, the drum comes with a deluxe carrying case and a certificate of authenticity. Only 250 of these drums will ever be made.

### THE VERY FIRST COLLECTOR'S SERIES® CARBON FIBER SNARE

Carbon fiber isn't a new drum-making material, but it is for DW. For years, players have asked about incorporating carbon fiber into the Custom Shop line-up. Many prototypes have been made and our testing has finally produced a shell that is good enough to make the cut. Offered in 5.5x14" and 6.5x14" sizes and available in any custom drum hardware color option, the Collector's Series Carbon has volume! It provides plenty of cut for loud playing situations, but it's also dynamically sensitive. Another choice from the Drummer's Choice®.

5.5 x 14" Carbon Fiber Snare

### BLACK IRON: A BOUTIQUE SNARE FOR THE MOST DISCERNING COLLECTORS

World-famous drum builder Gregg Keplinger has hand-crafted only 50 of these metal shells that have been carefully assembled in California by DW's team of skilled craftsmen. Its raw beauty is true to the Keplinger tradition, while its state-of-the-art functionality can be attributed to the latest DW drum hardware advancements, such as True-Hoops™, True-Tone Snare Wires™, True-Pitch 50 Tuning, MAG Throw-Off System with 3P butt-plate, and DW Heads by Remo USA. Complemented with Black Nickel hardware and nestled in a deluxe padded carrying case with a signed certificate of authenticity, the Black Iron snare is an extremely rare limited edition drum that's made to be played.

6 x 14" Black Iron Snare

Collector's Series  
Cherry Mahogany Snare

### THE NEWEST COLLECTOR'S SERIES® SHELL OPTIONS MAKE GREAT SNARES

The woodsy sound of Pure Oak and the warm sonic characteristics of hybrid Cherry Mahogany are perfect for snare drums. Available in a wide variety of diameters and depths, these drums are tailored for recording or live applications.

# PEDALS & HARDWARE

Machined Chain Drive Cam

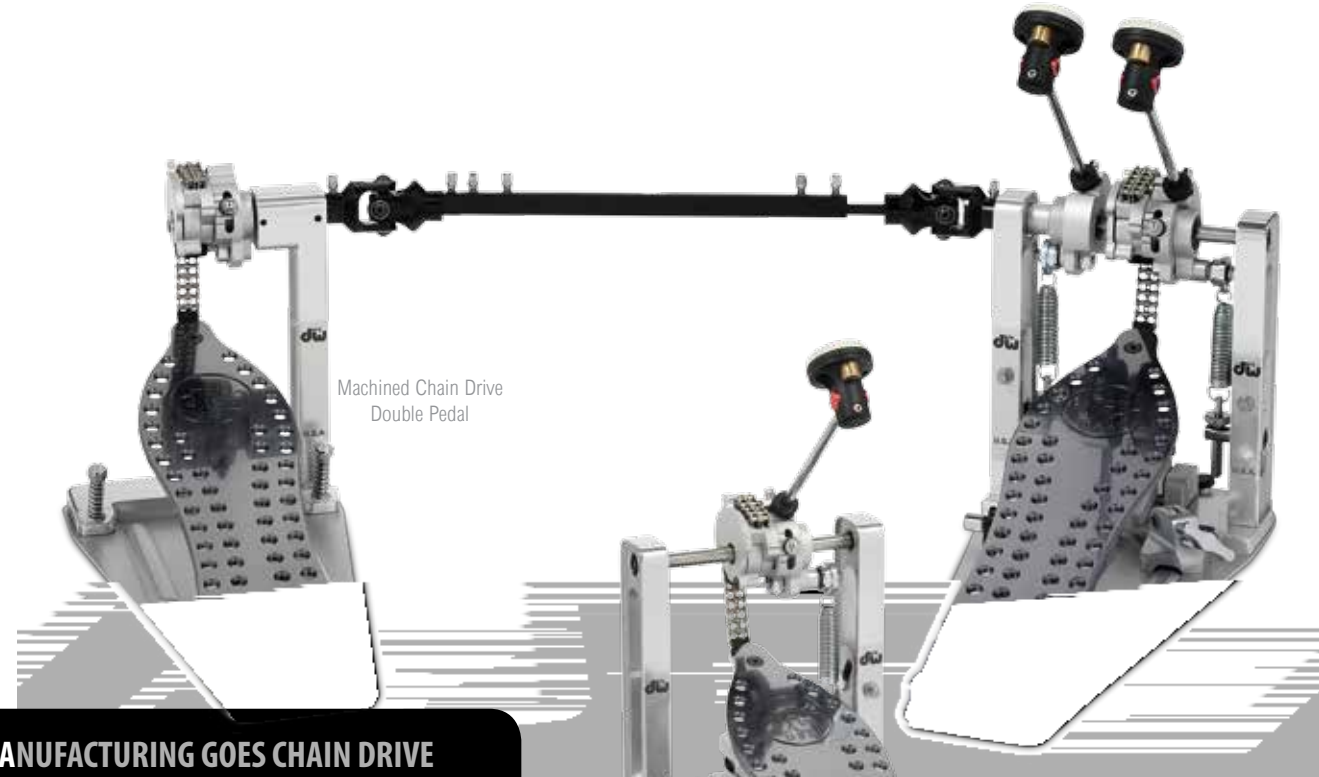

Adjustable 110 Control™ Beater

Tri-Pivot™ Swivel Toe Clamp

AB™ All-Bearing Universal Joint

Machined Chain Drive  
Double Pedal

### DW MANUFACTURING GOES CHAIN DRIVE

Following the success of the boutique line of MDD (Machined Direct Drive) pedals, and by popular demand, the DW Machine Shop is proud to unveil the MCD single and double chain-drive models. Loaded with ground-breaking features such as VERT™ (Vertical Sliding Tension Adjustment), TBT (Threaded Bearing Technology), Tri-Pivot Swivel Toe Clamp, and so much more, the chain-drive versions include a newly-designed Lever Cam Adjustment that allows players to quickly and easily shift between the most popular cam positions on the fly. Machined from high-grade aluminum in California, MCD pedals can be paired with the new MDD Hi-Hat to complete the ultimate race-inspired pedal set-up.

### DW ULTRALIGHT™ HARDWARE PACK: UL APPROVED

The latest addition to the DW 6000 line of retro-styled, flush-based hardware is thoughtfully packaged for the gigging drummer. The ultra-lightweight set comes with two 6710UL straight cymbal stands, a 6300UL snare stand, and a 6500UL hi-hat stand, complete with functional UL hardware bag. Dividers inside the durable nylon bag can be reconfigured to fit a pedal or other items such as cowbells, tambourines, or a stick bag. The lightest DW hardware pack is Ultralight-approved. To see detailed features and specifications visit: [www.dwdrums.com](http://www.dwdrums.com).

### BANG A GONG: A DESIGN SERIES™ "PANCAKE" GONG DRUM, TO BE EXACT

Crafted from North American Maple and finished in neutral Flat Black, the all-new "Pancake" Gong Drum was created to mimic the sound characteristics of full-sized gong drums, yet they can pack up in seconds. Mounted from a single TB12 tom bracket and fitted with signature Design Series™ mini lugs, this single-headed, 20" diameter drum packs plenty of punch and can integrate into the tightest set-ups.
